HILLSIDE SPANISH

LA JOLLA, CALIFORNIA

Tucked away in the Hillside area, this is a truly special Spanish colonial style home. The home was built in 1927 and remodeled over the years to feature imported fixtures and top of the line appliances. The main house has two stories plus a finished walk out basement, 4BR/3.5BA, wood floors throughout, a separate guest house with a full bath, and a separate entertainment building with a surround sound system. The property exudes old world charm with no detail spared in the many fine appointments.
